

FOR IMMEDIATE RELEASE**Freesuns Secures 1,000,000 CHF Investment
from consortium including, PHIDA Groupe and angel investors to propel solar
tile innovation.**

Freesuns SA, a pioneering company at the forefront of solar tile solutions, is thrilled to announce the successful raising of 1'000'000 CHF in capital including a strategic investment from PHIDA Groupe. This significant injection of funds marks a pivotal moment in Freesuns' journey towards a more powerful, beautiful, and sustainable future.

Freesuns specializes in the development of cutting-edge solar tiles, seamlessly integrating renewable energy technology into the architecture of beautiful buildings. These solar tiles not only provide an eco-friendly energy source but also contribute to the visual enhancement of buildings, eliminating any compromise between aesthetic, heritage and sustainability values.

The investment comes at a crucial time for Freesuns, enabling the company to accelerate its growth and further innovate its solar tile technology. Freesuns plans to use the capital to continue its research and development efforts in both software and hardware solutions and expand its sales reach into new markets.

"We are delighted to have the support and confidence of a strategic investor such as PHIDA Groupe," said Deborah Learoyd, Directing Manager at Freesuns. "This capital infusion will enable us to scale up our operations, push the boundaries of Building Integrated Photovoltaic (BIPV) solar technology, and bring us closer to our vision of solar tiles on every roof."

PHIDA Groupe, known for its strategic investments, sees significant potential in Freesuns. "We are delighted to partner with Freesuns in their mission to revolutionize the roofing materials through beautiful solar roof tiles. This allows us to offer our customers the latest in solar tile technology and maintain our leading position in French-speaking Switzerland in building envelope," said Bastien Sauve, CEO of PHIDA Groupe. "Their commitment to combining sustainability, functionality, and aesthetics aligns perfectly with our vision for the roofing industry."

About Freesuns:

FREESUNS
SOLAR  ROOFS

Freesuns is a leading innovator in the development of solar roof tiles, seamlessly integrating renewable energy solutions with architectural aesthetics. The company is committed to creating a more sustainable solar solutions which are visually appealing thus bringing solar roofs to a wider market of buildings.

About PHIDA Groupe:

 **PHIDA**
GROUPE

PHIDA Groupe is a family-owned group based in Renens, active in four sectors: construction, events, services, and investments. Historically prominent in the construction sector as a key player in building envelope, the group expanded through acquisitions in the

event sector and the establishment of service companies for businesses. Strategic investments in innovative projects or startups are also made when they align with the company's vision. Forward-looking, the group continues its development with teams spread across thirty companies in French-speaking Switzerland and one in France.
